LiquidMetrix TICK DATA SERVICE

European tick data service including MTFs

Level1, Level 2 and Level3 tick data containing every public order & trade

Files delivered by FTP or hard disk

Build your own full depth order books or use the LiquidMetrix WorkStation to view pre-calculated liquidity statistics and replay consolidated books.

Orders

Trades

Every Tick

WHO IS IT FOR?

- Trading firms needing historical **millisecond accurate** tick by tick order and trades data for back-testing their algorithms and evaluating trading strategies.
- Brokers looking for a low cost backup solution for their real time feeds via daily delivered files.
- Research departments requiring access to comprehensive historical tick data to analyse market microstructure or to calculate their own market quality statistics.
